INFINITY SHUTTERS™ (POLYMER)

Certified Australian Made and custom-made to fit your openings, Infinity Shutters™ are ready for installation in around 4 weeks*. The rails, stiles, and louvres are built from Polymer-Carbon-Glass Fibre over an aluminium internal frame, so they resist cracking, chipping, splitting, and warping where timber and standard PVC just don't.

They're also hypoallergenic, recyclable, fire-retardant, and non-carcinogenic, and insulate better than timber to keep your home comfortable all year-round.

Choose from 6 fitting options: fixed, hinged, sliding, bi-fold, bi-hinged, or pivot-hinged.

BLADE OPTIONS:

64mm ^
89mm
114mm ^

COLOURS:

Vivid
Bright
Classic
Off

EXTRAS:

- Fly Screen
- Cordless Block-Out Blinds

*Installation times may vary during peak periods.
^Limited colour options available.

EXTRAS:

Keyed Flush Bolt Locks
Hinged / Sliding Lock
+ Handle Set
Fly Screen
Slimline Keyed Lock
Aluminium L/Z Frame

INSTALLATION:

Around 4 Weeks*

*Installation times may vary during peak periods.

SUPA SHIELD™ SECURITY SCREENS

Supa Shield™ is built around advanced SP83 mesh, a hybrid combining the strength of 304 stainless steel with the corrosion resistance of 316 stainless steel. That makes it tough and rigid enough for large windows and doors, and well suited for coastal areas.

Supa Shield™ complies with BAL 40 and is held in a robust frame using our proven Hook-Clamp procedure. Designed and manufactured in Australia, every screen also carries a rubber insulation layer to proactively guard against corrosion, comes in 15 standard colours, and complies with AS5039-2008. It's ready for installation in around 3 weeks*.

Unlike many competitors, every Supa Shield™ screen is installed exclusively by our own K&B team, fitted precisely to AS5039-2008 for quality and peace of mind.

INSTALLATION:
Around 3 Weeks

DIAMOND GRILLE SAFETY SCREENS / COLONIAL CAST PANELS

Image Left: SP14AB

Image Right: SP34AB

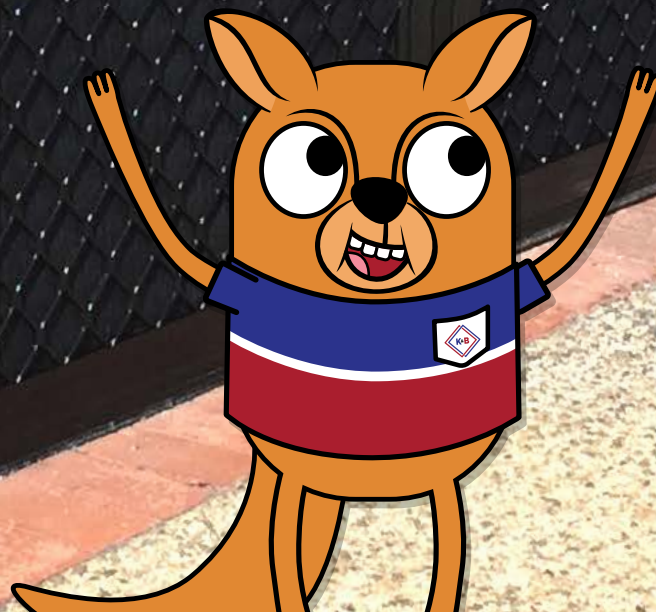

DIAMOND GRILLE SAFETY SCREENS

Diamond Grille doors and windows are a durable safety screen, designed as a strong visual deterrent and a rigid physical barrier across openings around the home.

Each door crafted by K&B features 3 hinges for enhanced rigidity, is riveted to the frame, and constructed with solid aluminium corner stakes to bolster resistance to heavy impacts.

COLONIAL CAST PANELS

We also offer Colonial Cast Panels. Colonial Cast Panels are manufactured from cast aluminium. A wide selection of designs and powder-coat colours are available.

INSECT SCREENS / PRIVACY SCREENS

INSECT SCREENS

Low-maintenance screens can effectively prevent insects, dust, and debris from entering your home or business.

K&B offers professional screening solutions for any area, regardless of shape or size, including doors, windows, and patio screened enclosures.

Fly screens can be hinged, sliding, or fixed, and be fitted with additional features such as portholes or pet doors.

MESH OPTIONS:

Standard Fibreglass

Paw Proof

Fine Screen

Aluminium (BAL 29)

INSTALLATION:

Around 2-3 Weeks*

PRIVACY SCREENS

We can also do fixed horizontal slat or fixed elliptical blade privacy screens.

*Installation times may vary during peak periods.
